Pre-Trial Hearing Slated

BY BOBKERR

Special Correspondent
Pre-trial hearing for William Bond Clifford has been set for Aug. 11 in the 16th District Court in Denton. An exact time for the hearing has not been set.

Clifford is charged with the April 7 murder of his wife and was moved to Denton on a change of venue by 47th District Court Judge E.E. Jordan.

Hearing will be held before Dist. Judge W.C. Boyd.

According to Denton District Attorney John Lawhon, "It is simply a hearing at which preliminary matters are conducted. Such things as requests for continuance and change of venue are heard. In this case, naturally, there has already been a change of venue. This particular phase will not be involved. An arraignment will also be held. The arraignment assures that the man on trial is the same person charged by the indictment."

Trial date has been set for August 27.

Youth Swim Meet Set

A "youth swimming meet" will be held at the indoor pool at West Texas State University on Tuesday.

Sponsored by the Canyon Rotary Club, the event is open to all youths up to the age of 16. Deadline for registration is Sunday, August 7, at 6 p.m.

Youths desiring to enter the meet should contact either Jon Low, Davis Price or members of the Canyon Rotary Club.

Ribbons will be awarded to the top four places in each event for boys and girls competition. Entry is limited to three events per swimmer according to Low.

In the 6 and under division, events will include a 10 yard freestyle. Events in the 7-8 year old division will be a 25 and 50 yard freestyle.

Fifty yard freestyle and backstroke and breaststroke in 25 yard races will be run in both the 9-10 and 11-12 year old divisions. In the 11-12 year division competition will also be held in the 50 yard individual medley.

Events in both the 13-14 and 15-16 year old divisions will include the 50 yard freestyle, 25 yard backstroke and 25 yard breaststroke. In the 13-14 year division a 50 yard individual medley will be conducted and open diving from the low board will be conducted for all ages.

All youths desiring to enter should register at 2513 Thirteenth Avenue by late Sunday afternoon.

Fines Levied Under New Act

W.A. "Bill" Wilson, Randall County Justice of the Peace, prosecuted numerous violators of the newly adopted Texas Water Safety Act Monday.

The charges stem from a clause in the Act that requires one Coast Guard approved life preserver, buoyant vest, ring buoy, or buoyant cushion in good serviceable condition for each person on board.

Wilson said that not all buoyant vests were approved by the Coast Guard and stressed that no safety belts are Coast Guard approved. He went on to state that every piece of equipment under the Act must bear the words "Coast Guard Approved" before they can be classified as safe under the Act.

Violation of any portion of the Act is a misdemeanor and is punishable by a fine of not more than \$200.

Pampa Congressman Resigns; Price Continues Campaign

Stressing that a "change in the candidates face will not

BOB PRICE

WALTER ROGERS

change my campaign plans" Bob Price told reporters at a Monday morning press conference that he will "keep blasting" in his race for the 18th Congressional District.

Following the announced withdrawal of Democrat Walter Rogers, the incumbent from the race, Price, the Republican nominee called the conference at the Amarillo Press Club.

He said, "I am not running against a candidate but running for a purpose. I believe our heritage is being destroyed by the path which this administration is following like deficit spending, inflation, mishandling of the Viet Nam War and specifically the lack of water conservation.

In answer to the question of who the opposition will be, Price said, "I have not heard who Washington has selected. The Texas Election Code calls for the district executive committee composed of all County Chairmen to appoint a substitute."

Price also said, "It is entirely possible that LBJ through his influence could be the one to appoint a candidate. Several Democrats have said this was a complete surprise and they are mad. To my knowledge no one in the Panhandle was consulted.

When questioned concerning the gain of support from persons who have supported Rogers in the past, Price stated "There are many people who agree with

me in principle, but who have supported Walter Rogers in the past out of friendship. I think the time has come for people

of the Panhandle to put their country first and their party label second.

THE GREAT WEALTH OF ABLE AND QUALIFIED INDIVIDUALS OF THE TRUE AMERICAN TRADITION IN THE PANHANDLE OF TEXAS SHOULD ENABLE THE DEMOCRATIC PARTY TO CHOOSE ANOTHER NOMINEE FOR THIS POSITION IN ACCORDANCE WITH THE LAW AND IN AMPLE TIME FOR SUCH NOMINEE TO CONDUCT A HIGHLY SUCCESSFUL CAMPAIGN.

Commission Rejects Civil Defense Merger

A move that would consolidate the city Civil Defense Unit with the Potter-Amarillo Civil Defense Unit was rejected by Canyon Commissioners at the group's regular Monday session.

Mayor Paul Lindsey voiced the opinion that 90 per cent of the activities that would need to be done in an emergency could and would be done by Canyon's emergency units and the Canyon Fire Department.

In justifying the decision Commissioner J. Manly Bryan said the election used by the CFD was sufficient to render emergency warnings.

Commissioners also agreed

that their was no allowance in this year's budget for the merger that would cost between \$4,500 and \$7,000 and that none was available for such action.

Gwyn had met earlier with Randall County Commissioners and Bill Butler, director of the Amarillo-Potter County Civil Defense program and had heard Butler explain that the county would pay for half the costs of the merger, with matching funds that could be received from the Federal government once the CD system was established.

The expenditure, basically a one-time investment, would include a base radio station, five radios, four bell and light systems for the schools, three or four sirens and a supplemental

salary of \$200 per month for operations officers, and a \$1,000 miscellaneous fund to provide gas for generators, supplies, etc. All but the miscellaneous fund would have been eligible for matching funds from the government.

Should a storm-warning emergency arise, the CFD plecton system blasts eight times and six times for an all-clear. Lindsey instructed Gwyn to draft a letter to County Judge Lloyd King explaining the commission's position on the consolidation.

In other commission action, city dads heard Gwyn explain that \$26,000 in delinquent taxes is outstanding and some action (See COMMISSION, Page 3)

Guides Set; Residents Cautioned On Frauds

WAYNE BOARD

Some guide lines have been established for persons purchasing hospitalization insurance--especially those over 65 years of age--and warnings issued to protect the senior citizens from so-called "Medicare" representatives.

Tristram Coffin, manager of the Better Business Bureau of Amarillo said traveling insurance agents are more likely to misrepresent what their policy will cover than the firm itself because "the insurance company will cover what it says it will."

He said one of the problems that the senior citizens fail to understand is that many policies will not cover pre-existing illnesses, even though the agent may say it does.

Coffin advised that the customer should read the policy carefully and be sure everything they want in their coverage is in "black and white."

He said a law recently passed, permits anyone purchasing insurance to return the policy and receive a refund within ten days of delivery date if they are dissatisfied.

The manager also advised that anyone in doubt as to a company or agent should call the Better Business Bureau of

office as records on the firm are available and someone in the office would be qualified as to what to look for in an insurance policy.

Continue Search For Dog

Canyon Police Officers are continuing their search for a large, shaggy dog that bit six-year-old Deone Morse, daughter of Gerald Morse July 25.

Chief L.D. Caldwell said the animal had been shot with a tranquilizer needle Saturday afternoon, but the needle hit a bone and fell from the dog.

The tan animal has a black spot on its side, has a collar and walks with a limp.

Deone was bitten by the dog near the Medford Trailer Park where she lives and the animal was last seen going south in the 600 block of 6th Ave.

Caldwell said the dog had eluded any attempts at capture but, although seen from a distance, the animal seemed to be well. Officers are attempting to take the dog alive so it can be checked for rabies.

He said some insurance policies "dove-tail" with Medicare and some do not, but the most important thing is to read the policy and to have a clear understanding as to its meaning before accepting it.

An 81-year-old Canyon woman was "biked" of \$50 and an additional \$80 was taken from her purse by a man who said he was from Medicare.

The man approached her in early June and informed her she would need to pay an additional \$50 for coverage through July. He accepted the money, wrote "PAID--\$50" on the bottom of her Federal health insurance papers and asked for (See GUIDES, Page 3)

Attorney Retained

About thirty Canyon residents who live in the south section of the city have employed A.W. Lair, lawyer, to protest the odor coming from a pig farm, south of the Santa Fe railroad tracks.

Lair said he would use any legal means available to solve the problem.

The farm is owned by Jim Guleke of Amarillo and Sidney Shore.

School Taxpayers Form Organization

Bailey McCormick, former Randall County Commissioner, took the reins of the newly-formed Randall County Taxpayers League Tuesday evening.

Seventy or more persons, who are objecting to the recent equalization by the Canyon Independent School District, met in the Bull Barn to organize, elect officers and form a plan of action.

Officers named include Forrest Gruner, vice-chairman and Mrs. W.E. Parker, secretary-treasurer. Members of the board of directors include Doug Marshall, Joe Wells, Howard Rogers, Fletcher Sims, Stanley Blackburn, Vic Hill and Earl Reynolds.

Name of the organization, Randall County Taxpayers League, was proposed in a motion by Fletcher Sims. Seconding the motion, Zack Grady said,

"That would cover all taxes including the school taxes." Sims agreed, stating, "This would give us a broader base to work with."

Thomas H. Thompson, editor of the Amarillo Globe-Times, was asked to speak to the group. He replied, "I would rather direct my remarks to your executive board when they get organized. I would make one suggestion, that this group be authorized to employ counsel."

Stanley Blackburn of Amarillo also stressed the need for a lawyer and some method of raising money to pay one. "Whether it is 5-10 cents or \$1 an acre we need to raise \$2,500 so the directors and chairman have something to work with," said Blackburn.

Following much discussion it was agreed that, if possible, each family should try to contribute \$10, more if so desired. This caused some dissent among the disgruntled taxpayers who weren't sure they wanted to pay that much for anything and rebuttal to the effect that "if you're not willing to pay to get something done you shouldn't have come" followed.

The ball finally started rolling when Emmitt Smith of Route 1 Amarillo, plunked down a check for \$100 followed closely by contributions to the cause from Glenn Casey and Glen Dugan. Before the evening (See SCHOOL, Page 3)

Equalization Move Defended

BY MARY ANN WALTER

There are approximately 5,200 parcels of taxable property in the Canyon Independent School District.

Letters concerning tax equalization were mailed to the 4,500 property owners.

Of the 4,500, 499 people came in to the school to review appraisal with the McMorries firm and only 86 of the 499 appeared before the Board of Equalization.

Of the 86 persons who appeared before the board of equalization, two presented some evidence or reason as to why their evaluation should be changed.

In a Canyon News interview with Jim McMorries of McMorries and Company, an Amarillo tax appraisal firm,

the above facts were pointed out.

When discussing reasons for not listing each individual's tax increase in letters mailed to taxpayers McMorries explained that "it is not a legal requirement and you have a furor before you start." He added that this is also done "so that people will come in, compare property values and see that equalization has been accomplished."

"The notices had the approval of the School Board and the Board of Equalization. The Tax office sends them out over the signature of the secretary of the School Board."

In defending the work done by his firm, McMorries said, "We visit every parcel of property for 'on the ground' (See EQUALIZATION, Page 3)

School Vacations Halt August 29

A halt to vacation leisure for students of the Canyon Independent School District has been set for August 29 according to Huey Laycock, superintendent of schools.

Classes at each of the four schools of the district will open with a regular full day of classes on Monday, August 29.

Activities of the first day of school will include the operation of buses on rural and city routes, and the serving of lunch in the cafeteria according to Laycock.

Registration for school will be held Friday and Saturday August 26-27, at each of the schools.

New students enrolling in the public schools should report to the principal's office of the school they will attend as soon as possible according to Laycock.

All new students will need to provide a statement from their doctor showing that they have been immunized against smallpox and diphtheria, a birth certificate, and a transcript of grades.

A general faculty meeting has been set for Thursday August 25, at 7:30 a.m. at Canyon High School to open official business of the schools for the 1966-67 terms.

Registration schedules for Friday include seniors from 8:30 until 12 noon; and juniors from 1:30 until 4:30 p.m. At the junior high school, freshmen (9th) will enroll between

8:30 and 12 noon; and the eighth grade will enroll between 1:30 and 4:30 p.m.

Registration for both elementary schools (Rex Reeves and Gene Howe in south Amarillo) will be conducted Friday. Students with last names A through K will enroll between 8:30 and 12 noon and students L-Z will enroll between 1 and 4 p.m.

Students in the first six grades living in the following area will attend Gene Howe Elementary School and all others will enroll at Rex Reeves Elementary:

Attending Gene Howe Elementary School will be those students north of the Claude Highway to where the Claude Highway intersects Washington Street Road, then those living north of a line southwest from this point to the intersection of Western Avenue and McCormick Road, then those living north of a line from this point to where this line intersects the Canyon Expressway one mile south of Hollywood Road; then west to the west line of the Canyon Independent School District.

Famed Pianist Buys Glassware From Williams

Liberace, the world famed pianist, purchased a set of six clear carnival sherbet glasses from a Canyon antique dealer during a recent antique show in Las Vegas, Nev.

Jerry Williams, who sells antiques in Canyon, had numerous articles on sale at the show which was managed by Ora Slout.

Williams commented that the glassware purchased by Liberace was "very rare and expensive" and was purchased for Liberace's own antique shop in Los Angeles, Calif.

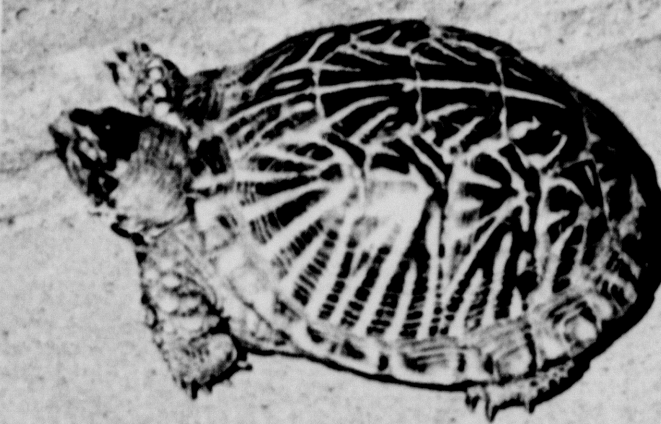

Williams' antiques were also shown at an all-member show of the National Association of Antique Dealers this summer in Chicago, Ill.

Kids, Inc. Football Is Planned

Boys who are nine and ten years old and who are interested in playing Kids, Inc. football are urged to contact Stan Lair, O.L.S.-3896, as soon as possible.

According to Lair, workouts will begin next Monday.

Lair said, "We would like for all boys, nine or ten, who are interested in playing football, to come out and tryout because everyone will have a chance to play."

Sunbathing

SAND TERRAPIN, who came out of hiding for a bask in the sun, was found in front of The Canyon News. Following a brief hassle over "no pictures please", the photographer put him on the sidewalk for safety's sake. The hissing creature was last seen traveling north obviously a bit shaken over the intrusion of his privacy.

Barbed Wire Swapped At Collector's Meeting

BY MARY ANN WALTER
The name of the organization may be the Texas Barbed Wire Collectors' Association, but "bob wah" is what you hear when this bunch of horse traders meet to jaw and swap.

Gathering at Panhandle-Plains Historical Museum Friday Saturday and Sunday for their first annual convention, members of the wire-collecting clan had a chance to get acquainted and finalize plans for a national organization.

Registration for approximately 100 members begin Friday evening at the Coronado Inn in Amarillo followed by a buffet supper for members and guests. A special note on the evening's program said, "THIS IS A SOCIAL MEETING-- PLEASE DO NOT TRADE WIRE AT THIS TIME!"

Saturday's session at the Museum opened at 9 a.m. with plenty of time to view the Museum's collection of wire and to staple down the beginning's of what will be the world's largest collection of wire.

Wayne Brown, an organizer and director of the organization stationed himself and a large sheet of beaver board just outside the Museum door just to make it convenient for folks to add their prize pieces of wire to the collection. The temporary display forms the beginning of a permanent collection which will belong to the Association and will eventually be on loan to museums.

Brown gave the wire collectors their first boost when he presented a feature type program on barbed wire via WBAP-TV in the Fort Worth-Dallas area last November.

The letters began pouring in and the idea of forming an organization began to grow. By January 1966 it was a reality. Today there are over 200 members in 13 states.

Patented in France in 1865, barbed wire made its first appearance in the United States about 1873.

It is now believed that over 500 varieties of barbed wire exist.

And just why would anyone want to collect barbed wire? Arguments range from the impulse to keep anything that has a bit of history connected with it to the very strong opinion that "bob" wire was as important to the settlement of the West as the six-shooter or the covered wagon. "It stopped the cattle drives north, stopped free roaming of cowboys, and ended the open range. People were obliged to stop in one place and stay there."

With so many people dedicated to collecting and cataloging this segment of our heritage it was felt that perhaps a national organization would better serve the purpose, with each state forming its own local organization.

Thus, W.V. "Bill" Sloan of Sabinaw, Tex., vice-president of the Texas Association was

named president of the National Association. Purpose of this national group will be to set the rules and regulations for collection and identification of wire and to co-ordinate activities of the various state associations. Members of state associations are automatically members of the National Association.

In opening the 10 a.m. session of the convention Saturday, Chuck Shyles of Fort Worth, president of the Texas Association said, "There is probably enough wire in the backs of these cars to put a wire fence around Amarillo." Shyles would probably also agree that he was having trouble getting people to quit swapping and come inside to the meetings.

inspection of that property. We have soil experts that work on rural properties and crews trained in commercial and residential appraising for those areas. About 10 men worked on the Canyon job."

"When we make an inspection of any parcel of property we may have to defend that inspection in court."

"We do more work of this type in the State of Texas each year than all those firms combined. Our jobs have been of the quality and have been handled in such manner that out of all we have worked in the state in nine years, we've had to defend only seven suits and we have won every single one of them."

"Most of those were in East Texas. Texarkana Independent School District actually resulted in three suits. One in Garrison (near Nacogdoches). One in Floydada."

McMorries indicated that most cases failed when "the attorneys came to us for actual facts." The only one tried, Floydada, ended with the judge's decision which held "That values placed on properties by the Board of Equalization, based upon our recommendations were fair, just and equal."

In reference to taxpayers who are protesting the equalization, McMorries said "We have the facts, they don't at this point."

According to statute, "A property owner must render his property to the tax assessor each year at fair market value. These people contend that there is one value for tax purposes and another for selling purposes."

"If anyone of these gentlemen can show me, in being honest, where we do not have fair and equal values, I'll be the first man to assist them in court to get values in line."

"I don't know which of the men talked to Mr. Gruner, but whichever it was, he was in error as to the future, potential value of property. Nothing in the statutes permits consideration of future potential development. However, statute is specific and requires that location of property and its highest and best use be considered."

"A Constitutional Amendment coming up for consideration in November provides for consideration being given to actual use of the land."

"You have two or three people who are leading a group of people into something that is going to be bad for them, for the Constitution of the State, the state statutes and the appellate court decisions require that all properties be placed

Saturday's activities were concluded with a banquet at the Coronado Inn with presentation of awards and a talk by Henry D. McCallum.

Then on Sunday morning about 9:30 the convention got down to the serious business of really trading wire. Tables were set up in the unfinished addition

to the Museum and as one person said, "It looked like an Arab sheep market!"

Sound like fun? It was! And if you are interested in becoming a part of this marvelous madness write: Texas Barbed Wire Collectors Association, P.O. Box 1444, Kennedale, Tex. for a membership application.

upon rolls at its fair cash market value or at an equal percent thereof."

"We can prove and will prove, if necessary, that the agricultural land in Canyon Independent School District is not valued at the same percentage of market value as is the urban property located in the City of Canyon and in South Amarillo and if these people want the same percentages, we'll try to help them in their courthouse to get the percentages raised to these other percentages. The urban area has always paid more."

When asked why the long wait before a complete re-evaluation of the school district was made, McMorries replied, "People don't like the idea of having to do these jobs. It gets to the point of 'have to'."

"People have no recourse in district court unless they can prove gross discrimination or fraud upon the part of the Board of Equalization. Under our present ad valorem tax laws we have to follow in these programs. We don't write the law and the best place these people can voice their objections to high values and these statutes is the legislature. Another alternative is 'to let the tax go delinquent and let the school board sue them.'"

"The Board of Equalization sat four days. The Board saw everyone who appeared. 499 people came in to the school to review appraisal with McMorries firm and only 86 of these appeared before the Board."

"There has been some comment that the Board of Equalization promised a second hearing. The Board, as far as I know, told every person that they would be notified as to action of the Board, not a second hearing."

According to McMorries the procedure followed in the equalization process began with hiring of the McMorries firm last August, this was followed by a year's work on evaluations. The School and Equalization Boards reviewed the findings before the Equalization hearings were held. Each taxpayer was notified and had the opportunity to present any recommendations and evidence as to value of property and as previously mentioned only two appeared."

McMorries closed his remarks by saying "These records are all open. It is absolutely untrue that changes were made. The only things changed were ordered by the Board of Equalization. The Board was checked on this."

Other firms bidding on the equalization project were Erik Ernborg of Dallas, Prichard & Abbott of Fort Worth and Southwestern Appraisal.

was over more than \$1,000 had been collected.

In the general discussion George Campbell of Amarillo said, "I was informed by one of the officials of Randall County, that this survey and assessment would be put to the School Board and would be up to the School Board to accept it. Then we appeared before the School Board and they said it was final. I cannot believe that the School Board says we can't do anything. They are elected by the public and should do as the public wishes."

This led to discussion of asking for a special school board session to which some replied, "We've already had one!" Many of the people present Tuesday had met the previous Tuesday at a regular session of the School Board. One man said, "I don't believe you are going to get your foot in the door without an attorney."

"SPUR", "PLATE", Glidden, buffalo, Crandall's Championall are types of wire that were on exhibit Friday, Saturday and Sunday at the first Annual Convention of the Texas Association of Barbed Wire Collectors. Meeting site was the Panhandle-Plains Historical Museum.

needed to be taken to aid collections.

Commissioners ask to receive a list of those with delinquent taxes, both "real" and "personal", so they could determine any hardship cases that might be exempt from the taxations. Gwyn said a list would be prepared for each council member so that they might make their own decisions then later discuss the special cases in regular commission session.

Gwyn said most of the taxes were small amounts but that they could be collected through legal action by the city. He also said the total split about "fifty-fifty" between real and personal taxes and that he would discuss collections with City Attorney A. W. Lair.

Marvin Harvey, a representative of the Blue Cross and Blue Shield Insurance Company of Dallas met with commissioners to discuss a newly-adopted insurance program for city employees.

Harvey told the group that thirty-three city employees desired the plan and that twenty dependents would also be included.

The plan, to go into effect Aug. 15, will cost the city \$9.18 per employee per month which includes major medical coverage and \$1,000 double-indemnity life insurance.

Harvey, who had met earlier with city employees to explain the voluntary plan, said the program would be open to new employees and that should a worker resign, he could keep the policy if he so desired.

Commissioners tabled a request by Vaughan Vandergriff, executive vice president of West Texas Ex-Students, Inc., to move a fire hydrant that sits in front of a newly-constructed entranceway at West Texas State University.

Gwyn said he would examine the minutes of previous commission meetings to determine if an agreement had been reached with former city manager Dewey Bryant and the students on the matter. Lindsey said he would be willing to move the hydrant if it did not result in a loss of fire coverage and provided the city would not bear the burden of costs.

Commissioners rejected a request by Orville Triplett that he be permitted to tap the line to the Umbarger water well field. It has been the policy in the past, Gwyn stated, to decide who might tie-on to the transmission station. He was given administrative authority to decide any future tie-on requests.

Turner Construction Company of Lubbock was given authority to pave the alley on 7th Ave. between 27th and 28th St. The Lubbock firm would pay all costs of the operation.

The city manager said he had talked with a representative of LoDal Manufacturing Company of Kingsford, Mich. concerning delivery of new trash collection equipment and containers for Canyon business establishments and learned that delivery would be delayed until about Sept. 1.

No attorney was selected at this meeting, but the decision to employ one was unanimous.

To help with the fund-raising problem and the business of letting people know about the organization, Blackburn suggested, "all of us know others who should be concerned. It is up to each one to think of new people, talk to them, tell them dues are \$10, to protect our interests."

Following adjournment, an executive session was held with Thompson, F.M. Collard, H.N. Wheeler and Ed Nobles meeting with the group.

Next executive meeting will be held Friday at 9 a.m. at Glenn Casey's office on the Canyon Expressway near Amarillo.

a drink of water. When she returned he began a conversation about her grandchildren. After he had gone she discovered an additional \$80 was missing from her purse. She had been saving the money to pay a hospital bill.

Canyon Chief of Police L. D. Caldwell said another method had been used to obtain money for the Medicare insurance coverage in the southern portion of the United States.

A man approaches the older person with a sheet of paper containing several names, including that of the person carrying the Federal health insurance.

After he examines the Medicare papers belonging to the senior citizens, he requests they sign their names to the right of their typed signature in a slotted area to signify they have been called upon.

He sells nothing, collects no money nor does he make any promises but he makes sure the senior citizen writes the signature within the slotted area.

Beneath the signature portion of the sheet are blank drafts that can be removed, later filled in and cashed by the "representative."

Several elderly citizens--especially women--have been "taken" by bogus insurance company traveling salesmen and men pretending to be Medicare representatives.

Randall County Sheriff L. S. "Slim" Johnston said the senior citizens should consult an attorney, capable friend who understands insurance or good reliable insurance agents before making any purchase and should check and double-check the salesman's credentials.

He said one woman told the salesman she had enough insurance to cover the "gap" between what she would need and the Federal health insurance but was informed by him that she needed to pay more than \$100 as his company had purchased her insurance firm. He said he was finally able to get her money returned, but that it took more than a month to do so.

"I don't want to knock insurance companies," the sheriff said, "but these elderly people have to realize that there are no Medicare men going house-to-house to check with them or sell them anything."

If the senior citizens are not satisfied with the salesman's credentials, he said, they can call the sheriff's office for verification.

"We're not trying to tell anyone what insurance to buy," he said, "but we want to make sure they get full value received for their money."

Russell Altmiller, Neblett Hospital and Clinic administrator, said under no circumstances should the senior citizens give any money to a Medicare representative as there are none.

He added that if the elderly patrons feel they need more insurance that it should be purchased from an insurance firm in the area because it would not cost any more and the local agent would be available to aid them with claims. The "traveling" insurance men usually represent companies that have Canyon agents, he stated.

Altmiller said he had heard of an instance in another city where the "representative" would tell the senior citizen that as the Medicare was \$40 deductible, they should pay them the money.

Conference Slated Tuesday

About 500 area elementary and secondary educators will be at West Texas State University Aug. 9-11 for the 14th Annual Reading Conference sponsored by the Texas Association for the Improvement of Reading and WTSU.

Three renowned educators will be featured speakers for the conference which will start with registration at 7:30 a.m. Tuesday in the Student Union Building on the WTSU campus.

One of the featured speakers, Dr. Kate Bell, who also serves as president of TAIR, will open

the conference at 8:45 a.m. in the ballroom of the SUB and Dr. James P. Cornette, president of WTSU will welcome the teachers.

The conference is designed to acquaint the educators with new methods and materials designed to assist pupils in reading, with some inference given to the beginning and slow reader.

Representatives of publishing organizations will provide many of the classes for the conference and area educators, as well as instructors at WTSU, will conduct class sessions.

Featured speakers will be Dr. Bell, director of elementary schools of the Houston Independent School District; Dr. Arthur W. Heilman, director of the reading center at Penn State University; and Dr. Trevor K. Serviss, vice president, chairman of the L.W. Singer Co., a division of Random House.

Tuesday's session will end with a watermelon party at 6:15 p.m. with activities resuming Wednesday with a general assembly. The teachers will attend the musical drama, "TEXAS" in the Pioneer Amphitheatre in Palo Duro State Park Wednesday evening.

The final day of the conference will begin with a general assembly Thursday and will conclude after a talk by Dr. Heilman at 1:30 p.m. on "Significant Research in Reading."

Mrs. Hazel Sunderman of Canyon, Mrs. Naomi Hopson of Hereford, Kenneth R. Skinner of Amarillo and Dr. Ruth Lowes of WTSU form the local planning committee for the conference.

About 30 separate sessions will be provided throughout the conference for the teachers who will be divided into primary, intermediates, junior and senior high school and librarian groups.

While Price continues his campaign, Panhandle Democrats are searching the 30-County 18th Congressional District for a candidate.

Claudia Brummett, Democratic District Committee woman, indicated that there have been "approximately 18-19 persons in the district that have expressed interest. This group includes present and past legislators and office holders in the counties and districts."

Wales Madden, Amarillo attorney most prominently mentioned as a possible candidate, withdrew from the race. Others who have been promoted for the job are Andy Rogers of Childress, Rep. Walter Knapp of Amarillo, Tom Upchurch, Amarillo attorney, Rep. Ralph Wayne of Plainview, and Rep. Bill Heatley of Paducah.

Miss Brummett expressed the opinion that the meeting would be in Amarillo, possibly this weekend, because of the central location and the time element involved. There are less than 90 days for campaigning between now and Nov. 8, election day.

Shutterbugs Snap 'TEXAS'

Amid shouts of "hold it", fifteen professional photographers and a horde of amateurs converged on "TEXAS", Pioneer Amphitheatre production, for an evening of "shutterbugging" Tuesday at Palo Duro Canyon State Park.

After a run through of the first and second act overtures, the play was staged scene by scene to allow the photographers a chance to shoot any portion of the show they chose.

The photographers came from Austin, Canyon, Hereford, Borger and Amarillo.

Average attendance for the month of July was 937 per performance with the last week of the month averaging 1,171, according to the Texas Panhandle Heritage Foundation. The outdoor theatre will seat 1,213.

Many bus loads of tourists from throughout the United States are attending the show which runs nightly except Tuesday.

Reservations are advised as the theatre has capacity audiences many nights.

Along with her favorite hobbies of sewing and swimming, Mrs. Edwards has also been a part-time saleslady at Thompson's of Canyon for the past 8 years. Her recipes follow:

CREAM PUFFS

1 cup water
1/2 cup butter
Heat to boiling point in saucepan and then stir in: 1 cup sifted flour.

Stir constantly until mixture leaves the pan and forms a

ball. Remove from heat and beat in four eggs, one at a time. Beat mixture until smooth. Drop from spoon onto ungreased baking sheet.

Bake at 425 for 45-50 minutes or until dry. Allow to cool. Makes 8 large puffs. Cut off top with sharp knife, and scoop out filaments of soft dough.

Fill puff with various kinds of fruit or custards. When using fresh fruit mix 3/4 cup of fruit with 1/4 cup sugar and 3/4 cup whipping cream.

After filling puff, replace top and dust with powdered sugar. Another filling which is excellent is a custard (which follows).

FILLING

Mix together in saucepan: 1/2 cup sugar
1/2 tsp. salt
6 Tbsp. flour

Stir in one cup half and half and one cup milk. Cook over low heat, stirring until it boils. Boil for one minute. Remove from heat.

Stir a little of mixture into 4 egg yolks (or two whole eggs)

which have been previously beaten. Blend into hot mixture in saucepan and bring to boiling point. Cool and blend in two teaspoons of vanilla or other flavoring. Fill puffs just before serving.

GERMAN CHOCOLATE POUND CAKE

2 cups sugar
1 cup shortening
4 eggs
2 tsp. butter flavoring
2 tsp. vanilla
1 cup buttermilk
3 cups sifted flour
1/2 tsp. salt
1 pkg. German sweet chocolate

Cream sugar and shortening. Add eggs, butter flavor, vanilla and buttermilk. Mix well. Add flour and salt, mix well. Add chocolate that has been melted in warm oven or double boiler. Blend together.

Cook in well greased and floured stem pan. Bake about 1 1/2 hours at 300 degrees. Place cake under a tight-fitting cake cover while hot and leave until cold.

Dr. Strain Traces Years Of Formation

Dr. William S. Strain of Texas Western College has traced the history of El Paso back through one million years of formation.

The history has recently been published by the Texas Memorial museum of the University of Texas in a bulletin titled "Blancan Mamalian Fauna and Pleistocene Formations, Hudspeth County, Tex."

The publication is the culmination of many years of study and research and four summers of intensive field work and has brought Dr. Strain recognition as a scientist, who has made original contributions to geology by clearing up uncertainties over dates of geological events.

Dr. Strain, who was born in Dallas County, first came to West Texas as a high school senior where he enrolled at Canyon High School to receive

his diploma. Later, he received his B.A. degree from West Texas State University, where his original interest in fossils was fed by nearby Palo Duro Canyon.

The M.A. degree in geology was earned by Dr. Strain at the University of Oklahoma. Dr. Strain joined the staff at Texas Western College in 1937 and later obtained his Ph. D. at the University of Texas.

Dr. Strain is a brother of three Canyon women including Mrs. C. Petruccione, Mrs. J. D. Barker, and Mrs. Mary Thomas. Another sister, Mrs. Glenn Stough, lives in Santa Maria, Calif.

Visiting with the Ted Reid family this week are their daughter, Mrs. Harold Borrego and son, Mike, of Anchorage, Alaska.

CFD Members End School

Four members of the Canyon Fire Department have returned from the 37th annual Texas Fire Training School on the campus of Texas A & M.

Those attending from the CFD were Bob Glanton, Lloyd Childers, Nathan Watson and Robert Rogers. Also with the group was Ray Gerber from the Umbarger Fire Department.

Glanton received training in fire marshal's work inspection methods, public relations, arson investigation and similar related matters.

The other three received basic fire fighting courses, included in their study was hose,

ladder, equipment and rescue techniques and uses. They also participated in actual fire fighting while at the school. "This marks the first time," said Captain Joe Rice, "that the city has been able to send this many men from the department to the annual school."

The program was sponsored by the State Firemen's and Fire Marshall's Association in conjunction with A & M's extension service.

Mr. and Mrs. Wylie Hannah of Tulia and sons, Bruce and Brian, visited several days last week in the Earl Miller home.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article VI of the Constitution of the State of Texas be amended, effective February 1, 1968, by deleting the following language:

"and provided further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before offering to vote at any election in this State and hold a receipt showing that said poll tax was paid before the first day of February next preceding such election. Or if said voter shall have lost or misplaced said receipt, he or she, as the case may be, shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be in writing and left with the judge of the election. The husband may pay the poll tax of his wife and receive the receipt therefor. If any other Amendment to Sections 2 or 4 of Article VI of the Constitution of the State of Texas, being for a different purpose, is adopted at an earlier election or at the same election, the adoption of this Amendment shall not be construed as nullifying any change made by such other Amendment.

Sec. 4. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

Educator Compiles Historic County Names

Randall County is included in a survey of Texas geographical names being compiled by Dr. Fred Tarpley of the Department of English at East Texas State University at Commerce.

A study of Randall County place names was undertaken as an English class project by Mrs. Barbara Ward Paschal of Sulphur Springs.

Dr. Tarpley is interested in adding other Randall County place names and accounts of their origins to his study, as well as variations of the name explanations given here. Information should be sent to Dr.

Tarpley, Department of English, East Texas State University, Commerce, Tex.

Residents of the county who provided information for Mrs. Paschal's study are Robert C. Brown of Umbarger, John McCarty and Shelby Kritzer of Amarillo, Earl Burtz at J. Boehning of Canyon. Other sources were the "Panhandle Plains Historical Review," "The Handbook of Texas Towns," and "Panhandle Plains Historical Society and Its Museum."

The following alphabetical list offers explanations for the

naming of Randall County place names.

AMARILLO. Amarillo is a Spanish word meaning "yellow." The Mexican herders called the lake near the townsite Oneida Amarillo because of its banks of yellow and the yellow flowers that abounded there. Henry B. Sanborn adopted the name and painted all the building yellow.

BIVINS LAKE. This lake was named for Lee Bivins, a Panhandle rancher and former mayor of Amarillo.

BLANCO CANYON. The Spanish probably named this canyon. The words mean "white canyon" in Spanish.

BUFFALO LAKE. Dr. J. A. Hill named this lake after the West Texas State Buffalo football team. It is also known as Tierra Blanca or "white earth" lake.

CANYON. Canyon, the county seat of Randall County, was first called Canyon City after Palo Duro Canyon. L. G. Conner settled at this site in 1887 and started the village in 1889.

CATARINO VELAQUEZ CAVE. Catarino Velaquez was the chief of a group of Mexicans who worked for John L. McCarty at Palo Duro State Park. He discovered the cave and McCarty named it in honor of him.

CETA CANYON. Because of its tall Ceta trees, this canyon received the name Ceta Canyon.

CLETA. The origin of this telephone exchange is unknown.

CORONADO LODGE. This lodge was probably named for Coronado who was the first white man to see the Panhandle of Texas.

DRY CREEK. Dry creek was given this name by the J.A. cowhands.

HIGHLAND. It is not known who named Highland, the railroad switch located in the northwestern part of Randall County.

HACKBERRY CREEK. Josiah Gregg named this creek in 1840 while on his expedition across the Texas Panhandle looking for a new trade route

from Fort Smith to Santa Fe.

HAPPY. The community was originally known as Happy Draw and Happy Situation. When it moved to the present location near the Santa Fe Railroad, it was named Happy and has been called "The town without a frown."

JOWELL. It is not known how this southwestern railroad switch got its name.

LIGHTHOUSE PEAK. This peak in Palo Duro State Park was given this name because it resembles a lighthouse.

LITTLE SUNDAY CANYON. Little Sunday Canyon runs through Sunday Canyon in Palo Duro State Park. It was named for Sunday Canyon.

MCSADDEN LAKE. This artificial lake on the Tierra Blanca and Hackberry Creeks east of Canyon was named for William McSpadden, pioneer oil-well driller in the Panhandle.

NIGGER ARROYO. The origin of this name is not known. However, Nigger Horse was the leader of the Comanches in the Panhandle, and it is possible that this arroyo was called Nigger after him.

NORTH CANYON. This canyon was given the name North because of its geographical location in Palo Duro State Park.

OGG. Ogg is a station on the Panhandle and Santa Fe Railroad in south central Randall County. It is not known how Ogg was named. The community school was established in 1893, and was called Ralph. Ogg is commonly known as Ralph Switch. Ogg was a family name in the Panhandle, and there is record of a Billy Ogg fighting at the Battle of Adobe Walls.

PALO DURO CANYON. The words Palo Duro mean "Hard wood" in Spanish and Indian. Palo Duro refers to the canyon's supplies of strong cedar brush from which the Indians made their arrows.

PANHANDLE PLAINS HISTORICAL MUSEUM. The Panhandle Plains Historical Society named the Panhandle Plains Historical Museum.

PRAIRIE DOG TOWN FORK OF THE RED RIVER. This fork is formed by the junction of the Palo Duro and Tierra Blanca Creeks in central Randall County. It was named by the U. S. Army engineers because at one time there was a prairie dog town there.

RANDALL COUNTY. Randall County was created from Bexar Territory in 1876 and named for Horace Randall, a Confederate soldier killed at the battle of Jenkins Ferry in 1864.

THE SAD MONKEY AND BURLINGTON RAILROAD. This scenic railway that runs

through Palo Duro Park was named by John L. McCarty. It is called the Sad Monkey because the rock above the location of the railroad looks as if it might be a sad monkey with some members of his family about him. The Burlington was added after the Treasure Hunt in which many sought to solve the legend of the Sad Monkey. The Burlington Railroad helped with the promotion and expense of the Treasure Hunt.

SPRING DRAW. Because of its many springs, this draw was called Spring Draw.

SUNDAY CANYON. This canyon was named by a surveying party in 1887 when they awoke one Sunday morning to see a mirage of the canyon filling the skies.

SUNDAY CREEK. Sunday

Creek was named by the same group of surveyors because it flows through Sunday Canyon.

TIERRA BLANCA CREEK. Tierra Blanca in Spanish means "white land." The soil around this creek is caliche which is a whitish soil. The Spanish might have called it Tierra Blanca after the color of the caliche.

TIMBER CANYON. The origin of the name of this canyon is unknown.

TRADEWIND AIRPORT. This name was chosen by Shelby M. Kritzer at the time the airport was constructed in 1946 because the name denoted the predominately fair weather winds that are existent in the southern latitudes of the western hemisphere.

WEST TEXAS STATE UNI-

VERSITY. In 1910, the law which resulted in the establishment of what is now West Texas State University was enacted by the Thirty-first Legislature of Texas. The institution was then called West Texas Normal College.

UMBARGER. This western Randall County ranching community was named for S. J. Umbarger, a pioneer settler.

The text of this Section is shown below, with a broken line through the sentence which is to be deleted:

The adoption of this amendment shall not be deemed to have the effect of readopting the remainder of the Section, and if any other amendment to this Section, being for a different purpose, is adopted at the same election, the adoption of this amendment shall not be construed as nullifying the change made by such other amendment.

Proposed CONSTITUTIONAL AMENDMENT NUMBER ELEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.

SENATE JOINT RESOLUTION NO. 19 proposing an amendment to Section 49-d, Article III of the Constitution of the State of Texas, declaring state policy regarding optimum development of water resources; providing for the use of the Texas Water Development Fund under such conditions as the Legislature may prescribe by General Law in the acquisition and development of storage facilities and any system of works properly appurtenant thereto; providing for the sale, lease or transfer of such facilities under General Laws; providing for long-term contracts for water storage facilities; authorizing the issuance of an additional \$200,000,000 in bonds by the Texas Water Development Board upon a two-thirds (2/3) vote of the elected members of each house; providing that anticipatory legislation shall not be invalid because of its anticipatory character; providing for the necessary election, form of ballot, and proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the state, which waters are held in trust for the use and benefit of the public. The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General

Law, including the requirement of a permit for storage or beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for water development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the state; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works

which the Texas Water Development Board has financed in whole or in part.

"Under such provisions as the Legislature may prescribe by General Law, the Texas Water Development Board may also execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as state bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment.

"The aggregate of the bonds authorized hereunder shall not exceed \$200,000,000 and shall be in addition to the aggregate of the bonds previously authorized by said Section 49-c of Article III of this Constitution. The Legislature upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue all or any portion of such \$200,000,000 in additional bonds herein authorized.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities together with any associated system or works necessary for the filtration, treatment or transportation of water at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the state that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Texas Water Commission or its successor authorizing the

acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or associated system or works or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1966, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing the issuance of an additional \$200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

"AGAINST the Constitutional Amendment authorizing the issuance of an additional \$200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.
